## Circle line tours, Inc.

*Our motto: A NEW TRIP EVERY TIME*

You have a new job as the circulation manager for the Circle Line Tour Company. They have been giving tours of the human body for over one million years. In your new job, you are to rewrite the travel brochures and places of interest articles throughout the circulatory system. Your office, in the right atrium, is in the heart of the company's operation. Continuous travel is one of the perks of your job. Every trip begins and ends at the Right atrium.

Choose **who** you want to be (Erythrocyte "Red" Jones, "Whitey" Leukocyte or Peter Platelet), where you want to go (2 destinations) and how you will present your information. :

This table will make your choices.

Who Will You Be: Choose 1	Where Will You Go: Choose 2	What Will You Write: Choose 1
Erythrocyte "Red" Jones	Small Intestine	Travel Article
	Biceps(muscle)	
	Brain	Brochure
"Whitey" Leukocyte	Liver	Letter (Business or Friendly)
	Stomach	
Peter Platelet	Kidney	
	Lung	Series of at least 2 postcards (one from each place visited)
	Big Toe (cell)	

### Be sure to explain:

- Who you are and where you were born.
- How you will be traveling around. Be especially careful with this one if you choose to be Whitey.
- Where you will be going as you travel ( vessels, chambers etc.). You must include both destination sin your essay.
- Who you met that influenced your journey (valves, clots, cell types, deposits etc.)
- The changes you went through due to the nature of your job.
- All the jobs which will need to be done when you reach your destination.
- Any dangers or disease you could be exposed to on your trips.

Your grade will depend upon your understanding of human anatomy, the circulatory system, how it is organized and how it works. Your effort in completing the assignment and your creativity will also be important. See attached grading sheet. This web site will help you: <http://www.fi.edu/biosci/preview/heartpreview.html>

**NOTES:**

Who are you?	Where were you born?
How you will be traveling around. Be careful with this one if you choose Whitey	What dangers or diseases you could be exposed to on your trip
<b>Answer the rest for both destinations....</b>	
<b>Destination 1</b>	<b>Destination 2</b>
Where you will be going as you travel (vessels, chambers, etc.) Remember to start and end in R atrium-	Where you will be going as you travel (vessels, chambers, etc.) Remember to start and end in R atrium-
Who you met that influenced your journey (valves, clots, cell types, deposits, etc.)	Who you met that influenced your journey (valves, clots, cell types, deposits, etc.)
What changes you went through due to the nature of your job	What changes you went through due to the nature of your job
What jobs need to be done when you reach your destination	What jobs need to be done when you reach your destination

## Grading Sheet

Name \_\_\_\_\_

DUE DATE \_\_\_\_\_

Hand this in with your assignment or -10%
