

Life activities: (20 pts)

Define five (5) of the following life activities using pictures. You must show the **definition** with pictures. Do not show me an organism which is excreting- show me the definition.

You may use drawings, word art, magazine pictures or cartoons.

Put the word you are defining on the back of the card and the definition (pictures) on the front

Example:

Growth means to get bigger so
I could make my card like this

(front)

GROWTH

(back)

Growth

nutrition
transport
respiration
excretion
regulation
growth (you may not copy my example)
reproduction
response
synthesis

Bonus words: you may do one
metabolism
homeostasis
