

# Life activities: ( 20 pts)

Define the following life activities using pictures. You must show the **definition** with pictures. Do not show me an organism which is excreting- show me the definition.

You may use drawings, word art, magazine pictures or cartoons.

Put the word you are defining on the back of the card and the definition (pictures) on the front

Example:  
Growth means to get bigger so  
I could make my card like this

nutrition  
transport  
respiration  
excretion  
regulation  
growth (you may not copy my example)  
reproduction  
response  
synthesis

**Bonus words:** you may do one  
metabolism  
homeostasis
